

# Parts Information

**TOKYO SEISAKUSHO Co.,Ltd**

## Greeting

TOKYO SEISAKUSHO was established in 1956 in Kita-Ku, Tokyo.

Since taking our first step as manufacture of knives using a Rotary presses, we have expanded our production into many fields such as replacement parts of rotary presses, bookbinding knives, special tools, and parts for auto insertion machines.

In order to meet the demands of our users, we are striving to develop new technologies, speed up manufacturing, and improve our services.

Now in the digitized society of the 21st century, we are considering the company's direction based on the needs of our customers.

**To make ideals a timeless reality.**

The background of the entire page is a light gray, semi-transparent collage of various mechanical parts and tools. These include bolts, nuts, washers, gears, shafts, and various hand tools like wrenches and screwdrivers, all arranged in a scattered, overlapping pattern.
